## **Recommended Best Practices for Outdoor Pickleball Play May 2020**

1. Do not play if you are unwell or have any cold or flu-like symptoms;
2. Before, during and immediately after play, wash/sanitize your hands and equipment;
3. Play only with people you know well and preferably, with a limited, small group;
4. Maintain contact information for any person with whom you play and immediately contact that person to advise if you develop Covid-19 symptoms within 2 weeks of play;
5. Where possible, arrange playing time by reservation only;
6. Maintain social distancing before and after games, particularly with other players on other courts;
7. Only use your own clearly marked balls for serving (suggest each player takes 2 balls on court); and
8. When necessary, stop play to ask for and safely get balls from other courts in play.
